## CONSENT FOR TREATMENT OF MANUAL AND VISCERAL THERAPY:

The term “informed consent” means that the potential risks, benefits, and alternatives of manual therapy treatment have been explained to you. I hereby voluntarily consent to physical therapy treatment.

**Potential benefits:** May include an improvement in your symptoms and an increase in your ability to perform daily activities. You may experience increased strength, awareness, flexibility and endurance in your movements. You may experience decreased pain and discomfort. Improved energy mobility and gastrointestinal function. You will have greater knowledge about managing your condition and the resources available to you.

**Potential risks:** You may experience an increase in your current level of pain or discomfort, or an aggravation of your existing injury or condition. You may experience tenderness, bruising, warmth, redness, aching, increased or decreased gastrointestinal motility, or other mild symptoms in general vicinity of tissues treated. This discomfort is usually temporary; if it does not subside in 24-48 hours, I agree to contact my therapist.

**I, the patient, understand in order to best treat my condition that EXTERNAL manual therapy techniques may be performed in the anterior chest region near breast tissue, the anterior pelvic region near genital tissue and structures, and in the posterior and inferior gluteal region near rectum and pelvic bones including the sacrum, coccyx, and ischial tuberosities. At any time if I am uncomfortable with any treatment I will immediately tell my therapist and I understand that I can decline any portion of the evaluation or treatment at any time.**

I grant AMMT therapists permission to use of all techniques they have been trained in, including soft tissue mobilization and myofascial release, visceral mobilization, joint mobilization, Active Release Technique, therapeutic exercises, neuromuscular re-education techniques and any other techniques believed to benefit me until I am discharged from care. \_\_\_\_\_ (initial)
